

Dear Valued Customer:

In light of the recent developments surrounding COVID-19, we at Nucor Environmental Solutions Ltd (NES) wish to reach out and inform our customers and business partners that we are available to help.

Nucor Environmental Solutions core line of business is hazardous materials remediation and abatement. The NES team specializes in the implementation of proper decontamination procedures as well as specializing with biohazard cleanup work. We have safe work procedures that have been developed by NES Industrial Hygienist intended for the current COVID-19 virus along with proper hospital grade disinfectants that will kill viruses, bacteria, moulds and fungi.

Our staff are trained in CSA standards for infection control.

NES is available should anyone need our support and we can be reached through your existing NES contact or get in touch through the following channels:

- E-mail: [info@nucorenv.ca](mailto:info@nucorenv.ca)
- Edmonton: 780-481-1461
- Surrey/Lower Mainland: 604-575-4721

**If this is an EMERGENCY, please call 1-844-542-9628**

We all need to be aware and be safe.

Thank you,

Nucor Environmental Solutions Ltd.
